

# XIAOKOA Wireless Lavalier Microphone

2.4G Wireless Microphone System with Lavalier Lapel Mic, Transmitter & Receiver

Portable Wireless Lapel Collar Clip-on Microphone: Mini metal clip allows you to easily clip it to your collar, tie, pocket, or clipped on the belt. We use state of the art lightweight materials to insure you barely even notice the wireless lapel mic is there.

- High Tech: Wireless Lavalier Microphone adopt international 2.4G Wireless transmission, continuous frequency. Automatic match. The distance rang is within 49ft in open field without drop of the frequency at 360 degree. The wireless mic also has strong noise canceling and low interference, transmitting stable and clear sound for you.
- Easy to Use: Just plug the receiver into MIC jack of your Device, turn on both the transmitter and the receiver, and wait 2 seconds, they will connect automatically. It needs to work together with voice amplifiers/ multimedia/speaker system and more. The surprise is a free 6.35mm adapter is included, which can be used for the Louder Speaker, PA system, Karaoke.
- More Scenes: The wireless microphone can be widely used for voice amplifying, specially for record loud and crisp sound when interviewing, live broadcasting on Podcast, calling with Skype, class teaching, Audio/Video Recording on YouTube, conference speech, tour guiding, Public Speaking, stage performance, etc.
- Rechargeable Wireless Microphone: The dual Micro USB cable can charge both the wireless transmitter & receiver at the meantime, taking about 2-3 hours. Has a working time of more than 6 hours on a full charge.
- **PLEASE NOTE: It's not suitable for small power speaker equipments lower than 100W. If your is low power, please choose N80: B01HOB5SKE.**
